## PMG Expands Global Reach with New Alliance Partners

### *IT Service Catalog Provider Continues Rapid Growth*

**Atlanta, Ga. – May 27, 2009** – PMG.net Inc., the technology leader for ITIL compliant service catalogs announced today three new alliance partnerships with Micromation, Inc in Canada, Middle East Turnkey Solutions in Kuwait and IT Prophets in the United States. PMG is working closely with these partners to extend its global coverage of the service catalog market. PMG offers the most comprehensive, yet flexible and easy to use multi-lingual Service Catalog available.

PMG selected Micromation as a partner in Canada. Founded in 1998, Micromation specializes in Information Technology (IT) cost management. Micromation offers expertise in ITSM measurements and ITIL best practices along with a number of other IT related services across Ontario, Quebec and other Canadian provinces.

Middle East Turnkey Solutions will provide local representation for PMG in locations such as Kuwait, Bahrain and Dubai. Established in Kuwait in 2005, Middle East Turnkey Solutions (METS) focuses on the financial services, banking, insurance and investment industries.

IT Prophets, a leading provider of Business Service Management Solutions, has also teamed with PMG. As a BMC Premier Solutions Partner, IT Prophets provides innovative insights to IT organizations using BMC's Remedy IT Service Management suite and BMC Service Desk Express to support their ITIL initiatives.

“We are pleased to partner with high calibre organizations like Micromation, Middle East Turnkey Solutions and IT Prophets to extend our reach around the globe,” stated Joe LeCompte, principal of PMG. “Working with these IT experts helps us deliver our rapid ROI service request management suite and continue to grow despite the current economic conditions.”

PMG's service request and fulfillment suite leverage's PMG's deep experience in e-Commerce, portal deployment and collaboration. This solution is the combination of:

- PMG iRequest: an e-Commerce online catalog and request system
- PMG iDeliver: a Business Process Management suite providing powerful workflow and integration
- PMG iCollaborate: a content management and collaboration engine

PMG's built-in connectors provide out-of-the-box integrations with Microsoft SharePoint, Active Directory, e-mail, and most leading help desk, project management, ERP or CRM applications such as BMC Remedy and Service Desk Express, CA Service Desk, HP Service Center/Manager, IBM Maximo, Numara Footprints, and numerous others.
